

(OBPCo Testimonial, Nb 'Centaur')

Chris and Mark inspected my boat on its home mooring, and advised me which areas needed particular attention, which areas were straight forward, and how much preparation would be required for each area.

A detailed draft quotation was produced, outlining the products they would use, how many coats, paint thicknesses, suggested colours and time frame.

After agreeing a price, they then produced a selection of sample colour plates for me to make a final decision on colour and finish. They also were able to recommend a sign writer, but were quite happy to work with a sign writer of my choice.

During the re paint they had no objection to my visiting periodically, and explained in detail what they were doing and why, whilst keeping me fully informed of progress.

Their service included liaising with my sign writer to ensure the sign writing was completed at the same time as the re paint.

Overall I was impressed with their knowledge of paint products and attention to detail. This meant that the entire job was completed on time and to a high standard, and they obviously took a real pride in their work.

Since the re paint numerous boat owners have commented on the finish and asked for details of the painters, and I would have no hesitation in recommending Chris and Mark's work to anyone.
